Completed 8 IGCSE courses with a 97% average.

PROFILE

Pursuing my degree in Global Business and Digital Art has been instrumental in launching my professional journey, giving me a strong foundation in Adobe Illustrator, InDesign, Photoshop, and the Creative Cloud suite. Through courses like magazine design, poster design, and image, video, and film editing, I have gained hands-on experience in creating and executing designs that effectively communicate across various mediums. As I advance in my studies, I consistently seek opportunities to apply the concepts I've learned to real-world situations.
